SUMMARY

Full Stack Developer with hands-on experience building production-ready web applications using React, Node.js, MongoDB, TypeScript, and Firebase. Proven ability to convert requirements into scalable features, improve application performance, and collaborate in agile teams. Delivered projects involving AI-powered systems, secure backend workflows, multilingual interfaces, and real-time communication. Fast-learning problem solver with a strong focus on clean architecture and user-centric development.

EDUCATION

NMAM Institute of Technology BTech in CSE (Cyber Security) CGPA:7.00	Karkala, Nitte May 2027
SDM Polytechnic Ujire Diploma in Computer Science & Engineering (Full Stack) CGPA:8.85	Ujire, DK April 2024

SKILLS

Programming: Python, JavaScript, HTML/CSS, SQL, NoSQL, Node.js, React.js, Next.js, React Native.

Tools & Technologies: Android Studio, Git & GitHub, AWS, Firebase, Postman, VS Code, CI/CD, WebSockets, Figma, Canva, REST APIs.

Soft Skills: Collaboration, Communication Skills, Problem-Solving, Time Management, Focused, Attention to Detail.

EXPERIENCE

CodeLab System Pvt. Ltd. Mangalore <i>Full-Stack MERN Intern</i>	Jan 2024 – April 2024
- Developed and optimized multiple web application modules using the MERN stack. - Designed and integrated RESTful APIs ensuring smooth client-server communication. - Performed MongoDB CRUD operations for backend data management.	

PROJECTS

Cyber Awareness (WALRUS) <i>A full-stack cyber security education and protection platform.</i>	🔗 Live
- Developed core modules for an AI-powered scam detection feature using Gemini AI and Node.js. - Built multilingual UI (English, Hindi, Kannada) leveraging React + TypeScript, improving accessibility for users across regions. - Implemented secure authentication and Firebase integration, enabling real-time threat reporting.	
Animated Portfolio <i>Your immersive personal website featuring interactive 3D elements.</i>	🔗 Live
- Designed and developed a 3D-themed interactive portfolio using React, TypeScript, Three.js, and Framer Motion. - Created smooth animations and transitions that improved user engagement and session time.	
CHC Secure File System <i>A project focused on secure data handling, aligning with your Cyber Security background.</i>	🔗 Live
- Implemented secure file-handling workflows involving encryption and access-control logic. - Built backend components (Node.js/Python) enabling protected storage and controlled file retrieval.
