Education

B.Tech - Computer Science & Engineering (Cyber Security) NMAM Institute of Technology, Nitte	2024 – 2027 Karnataka
Diploma - Computer Science & Engineering SDM Polytechnic, Ujire	2021 – 2024 Karnataka
• Percentage: 88%	

Skills

Languages	TypeScript, JavaScript, Python, Java, SQL, HTML/CSS
Frontend	React.js, Next.js, Tailwind CSS, Three.js, Framer Motion
Backend	Node.js, Express.js, FastAPI, Spring Boot, MongoDB, Firebase, PostgreSQL
Tools & Cloud	Git, Docker, AWS, Vercel, Vite, Pygame

Projects

CodeSentinel - Full-Stack Security Analysis Platform	Next.js, FastAPI, Python, TypeScript, Docker GitHub
• Built a security platform that scans GitHub repos and live URLs using AST pattern scanning (12+ vuln types), multi-step vulnerability chain detection, and working PoC exploit generation to prove real attack paths.	
• Integrated LLM-powered (Groq/Ollama) patch generation with a red agent validator, GitHub PR automation, and a live D3.js attack graph dashboard; containerized with Docker Compose.	
WALRUS - Cybersecurity & Digital Safety Platform	TypeScript, React, Node.js, MongoDB, Python GitHub
• Built a full-stack cybersecurity education platform with an AI-powered scam analyzer using Hugging Face NLP (BART-large-MNLI) to classify phishing URLs, emails, and phone numbers with confidence scoring.	
• Implemented gamified learning with 5 progressive modules, leaderboards & daily streaks; hardened with Helmet.js, rate-limiting, CORS protection, and multilingual support (English, Hindi, Kannada).	
DriftGuard - ML Network Intrusion Detection System	Python, scikit-learn, TensorFlow/Keras, SHAP GitHub
• Designed an ensemble ML-based IDS combining Isolation Forest, Dense Autoencoder, and Bidirectional LSTM with weighted fusion, achieving ~2,380 flows/sec throughput.	
• Validated across CICIDS2017, UNSW-NB15, and UGR16v2 real-world ISP datasets; integrated SHAP-based explainability for flagged network traffic analysis.	

Internship / Work Experience

Full Stack Developer Intern Melsta Studio	Jun 2026 – Present Bengaluru, Karnataka (Remote)
• Developing and maintaining full-stack features for an AI-powered beauty marketplace platform connecting verified professionals and clients, using React.js, Node.js, and modern web technologies.	
• Building responsive UI components, REST API integrations, and contributing to platform architecture in a fast-paced startup environment with flexible, remote-first workflows.	
Student Technical Lead Computer Society of India (CSI), NMAM Institute of Technology	Aug 2025 – Apr 2026 Nitte, Karnataka
• Leading technical initiatives for the CSI student chapter, developing and maintaining club platforms using Next.js and modern web technologies.	
• Mentoring junior members on full-stack development and coordinating technical events and workshops for 500+ student members.	
Full Stack Developer Intern Codelab Systems	Jan 2024 – Apr 2024 Jyothi Circle, Mangalore
• Completed a college-arranged internship focused on building practical full-stack skills using React.js, Node.js, REST APIs, MongoDB, and Git version control.	
• Developed a Food Recipe Web App featuring user authentication, search & filter, API integration, CRUD operations, and a fully responsive UI.	

Certifications

• Internet Crimes and Cyber Security / NPTEL · Feb–Apr 2026 / Score: 96%	
• Oracle Cloud Infrastructure 2025 - Networking Professional / Oracle · Nov 2025	[Verify]
• Hedera Hashgraph Developer / The Hashgraph Association · Oct 2025	[Verify]
• Systems and Usable Security / NPTEL · Apr 2025
